

Sharpen your survival skills in our Castaway Minecraft world!

ComputerXplorers provides technology-based activities that are both inspirational and aspirational.

Our unique engaging and educational programmes are always hands-on with plenty of fun and interaction. We encourage 'e-confidence' in children in an age when computers and technology are essential life skills.

Survival Learning and Adventures using Minecraft Edu:

Castaway on an island with just the natural resources available to them for survival, the children will work individually and as a team in our unique Minecraft Educational world. They will find ways to survive by creating everything they need from scratch using just the Minecraft blocks, their mining and crafting talents, their imagination, and ingenuity. They will design and build their own shelters before creating an entire village for the group to live in. Finding food to live on leads the group to grow their own crops and look after animals. Once secure in their own village the group venture out on the island and discover some of the Minecraft biomes ranging from the jungle to the desert. Finally, no survival adventure would be complete without conquering the local castle.

Key information

- ✓ Open to children in years 5 & 6.
- ✓ Club runs in the ICT suite in school every Monday for 6 weeks from 3.30pm to 4.30pm.
- ✓ first session being Monday 15th January

Improving your child's ICT skills

Our weekly Parent Updates will let you know what your child has been working on in each session and will include further activity suggestions to help continue their learning at home.

These are sent out shortly after each session.

To ensure you receive your Parent Update, please provide your email address (in capital letters) – we won't give this to any nasty spammers just the lovely people at ComputerXplorers.
